March 30, 2009

Enclosed is your multi-peril crop insurance confirmation of coverage with ProAg. This confirmation shows your covered crops, your plan, and your levels of coverage. Look at this closely, if there is an error, we can only fix it if we are notified before the crop is planted. The Policy Jacket, Basic Crop Provisions, and Endorsements are available at our office. Please let us know if you would like a complete copy for your records.

FINAL SPRING PRICES

CORN	APH \$4.00	CRC & RA \$4.04
SOYBEANS	APH \$9.90	CRC & RA \$8.80

PLANT DATES	Earliest plant date	Final plant date
Corn	April 1st	May 31st
Soybeans	April 26th	June 15th
Oats	none	April 15th
Grain Sorghum	April 16th	June 15 th

PREVENT PLANT & REPLANT:

In the event you are PREVENTED from planting an insured crop, you MUST notify us so we can submit a claim. If claims are not reported, within 72 hours after the final plant date, the claim will be DENIED.

If you have REPLANT, please notify us before you start, so we can get a claim turned in. You must notify us before you replant whether you expect a claim to be paid or not. You must also notify us if you are just filling in spots.

All claims made after the fact are DENIED. Exceptions are not made to these rules. It is better to file a claim and withdraw it later, than to have a valid claim denied.

REMINDER:

You have until June 30TH to report your certified acres to our office. This will attach your multi-peril crop insurance coverage to your crops. Please bring us a copy of the FSA forms (including the all farms summary as it shows plant dates) and maps with you when you report your acres to us. Please ask the FSA for a second set of forms for us when you certify. If the FSA has a unit marked as irrigated and you do not intend to irrigate, you will need to ask them to change the practice to non-irrigated. We have to match what the FSA has on their report.

NOTE:

If you have added or changed land, please get the total number of acres to us along with the FSA maps as soon as possible, so we can determine what your yields will be on the new ground.

Sincerely,

Janis Dennis Linda Kim Bridget
